Evaluate your current window cleaning workmanship with this FREE quality-assurance guide from Paneless Perfection Inc.

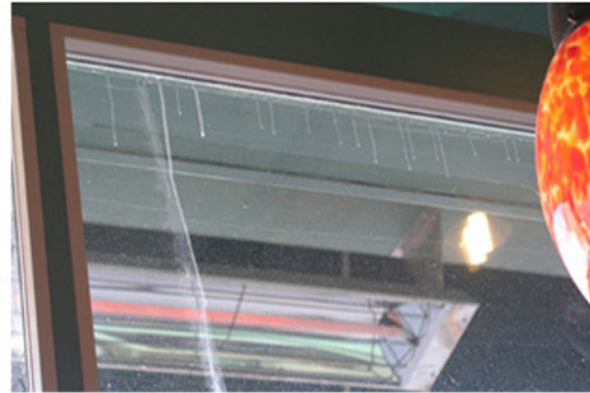

Please print this page out, and compare the photos below with the workmanship that you are receiving from your current window cleaner. We believe that the more educated you become as a consumer, the more value an experienced professional will have in your eyes.

Problem?

NO

YES

If YES, where?

Ugly Drips.

Drips usually occur along the top edge of the window, and are caused by the application of too much water to the frame itself.

Preventable? Yes.

Do you see any of these on your windows?

Problem?

NO

YES

If YES, where?

Messy Edges.

These messy edges are the direct result of two things: either inattention to detail, or poor technique.

Preventable? Yes.

Did your last window cleaner leave you any of these?

Problem?

NO

YES

If YES, where?

Streaks.

This is by far the most appalling of deficiencies. Look at how ridiculous this "clean" window looks...

Preventable? Yes.

Does this look like YOUR window? If so, we can help.

What about your window **SILLS** and/or **FRAMES**. Have they been properly wiped down?

If there are **TAPE, GLUE, PAINT**, or some other kind of residue present on your windows, have the options for removing these materials been discussed with you?

If you'd like to see the difference a professional can make for your home or business, please take 30 seconds right now, and request your FREE estimate by calling 416-779-7263.
